PICK UP BOX 600

 ENGLISH

AXESS

Axess PICK UP BOX 600

Prepaid ticket issuing in seconds

Getting a ticket has never been easier. Within seconds, the Axess **PICK UP BOX 600** dispenses the ticket which was previously purchased in the Axess **CONNECT.APP** or in the Axess **WEBSHOP**. Simply scan the barcode from a print@home voucher on paper or from an electronic voucher on your mobile device. The ticket is printed immediately out of the **PICK UP BOX 600** and makes queuing at the cashier a thing of the past. The space saving, solid construction enables easy installation and integration on site, as well as reliable operation in all weather conditions. Thanks to its modular

design, the **PICK UP BOX 600** is also easy to maintain and can be retrofitted with the latest technical innovations at any time. Multiple tickets can be issued simply by scanning the QR code for a group. All tickets are printed at the same time. For indoor areas such as trade fairs vouchers can be printed out by connecting the Axess **BADGE BOX 600**. These vouchers can be offers, discounts on services or free souvenirs.

The side panel can be adapted to the customer's layout and information can be displayed on the touch screen of the Axess **SMART SCANNER 600**.

In short

- › Intuitive operation ensures smooth self service and issuing of barcode tickets or smartcards (no more queuing)
- › Weatherproof
- › Slim fit
- › Individual customer layout for operating instructions panel
- › Screen for marketing information or advertising
- › Remote maintenance
- › Group tickets
- › Optional Axess **BADGE BOX 600** for special offers or information (for indoor areas and fairs)

Side Panel
Fully adaptable to
the customer's layout
